above designated historic assets. The conclusions of this work indicate that the proposed development on will have a low to moderate impact on the settings of scheduled monuments GM386 Earthwork on Graig Fawr and GM513 Two Burial Chambers on Graig Fawr, with a lesser impact on the settings on Listed Buildings 18453 Plas Mawr and LB19451 Plas-Newydd Mill but none of these impacts will cause significant harm. Cadw concurs with these conclusions.

Finally, there may be undesignated historic assets that could be affected by the proposed development and, if you have not already done so, we would advise that you consult the Historic Environment Record held by the Dyfed Archaeological Trust.

Yours sincerely,

National Policy

Applications for planning permission are considered in light of the Welsh Government's land use planning policy and guidance contained in Planning Policy Wales (PPW), Conservation Principles for the Sustainable Management of the Historic Environment in Wales, Technical Advice Notes and related guidance.

PPW ([Chapter 6 – The Historic Environment](#)) explains that it is important that the planning system looks to protect, conserve and enhance the significance of historic assets. This will include consideration of the setting of an historic asset which might extend beyond its curtilage. Any change that impacts on an historic asset or its setting should be managed in a sensitive and sustainable way.
